Linum Software Instructions

Application requierments: GPS, 3G, Windows phone 8.1 or above.

Application link: https://onedrive.live.com/redir?resid=5B56964009B475F7!9129&authkey=!AH-KgKBtWCUzZkc&ithint=file%2cappx

Important Notes:

▹The LINUM application is not on the windows store yet, so you will be provided with a link to the app package on the **one drive** to download and deploy from a windows 8.1 or windows 10.

▹Your phone must be unlocked as a devolopper phone to allows the instalation of application from a computer.

▹For the application to be fully functional your devices must be running windows 8.1 or above.

▹For more information about unlocking your devices or deploying packages please consult the MSDN on the link below.

https://msdn.microsoft.com/en-us/library/windows/apps/ff769508%28v=vs.105%29.aspx.

# First Use

Signup or login

At this part you can creat a new account by filling a very simple form, but for a faster testing you are provided with an account to login and try the app.

Login to the app

Use the phone number **0698300131** and the password **imagine1980** and press the submit , then waite for authentication, if there is no connection then you will see a box that say "Something went wrong", otherwise you will see a new page

The Main Page

➢ At this page there are four gategorie, in fact those are our services :

I.   Compagnship : This service is a guide, mostly for tourists
II.   Reparation : This service is for repairing your things like a car, washing machine….
III. Urgent : This service is for helping people in need at that time.
IV.   Volunteer : This service is for helping people, mostly old people and asking for help, besides you will be provided with a list of association to donate money or stufs.

At this part your GPS must be turned on to detect you location.

"

In the next slides, each gotegorie is descussed.

Compagnship

▷ In the list the user select a categorie like Super Market,Fast Food….etc.

▷ Another list will appear, that list show all the targets corresponding the selected categorie, the shown targets are those at the same city where you are.

▷ After selecting a target, you will be provided with his phone number and a map that show you the road.

▷ Since our company data base is almost empty, we are not using the filtring by region, and the targets are mostly our colegues who are trying the Beta version of the app .
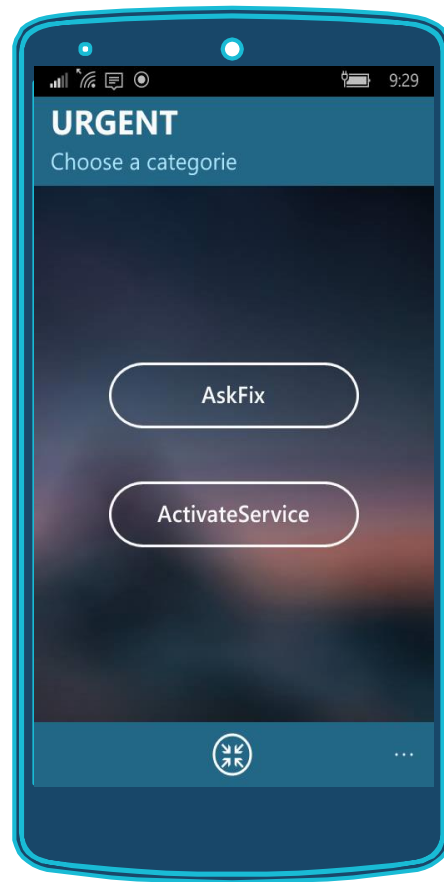

▷ .

Reparation:

▷ This part is very similare to the the Compagnship part, but it is for find where to repair you broken stufs like washing machines, cars0…etc.

▷ Here also you will be provided with the target phone number and a map that shows you the road.

Urgent:

▷ At this part you will either select the button **Activate Service** if you are subscribed as an employee to be called by people in need or **Ask Fix** if you are a simple user who needs urgent help and you will be called once there is someone at this region that can help.

▷ If you press the Ask For Help button, you will select from a list a help categorie.

▷ The urgent part of the linum application require 2 windows phones to simulate one user press **activate service**, and the other user press the **Ask Fix**.
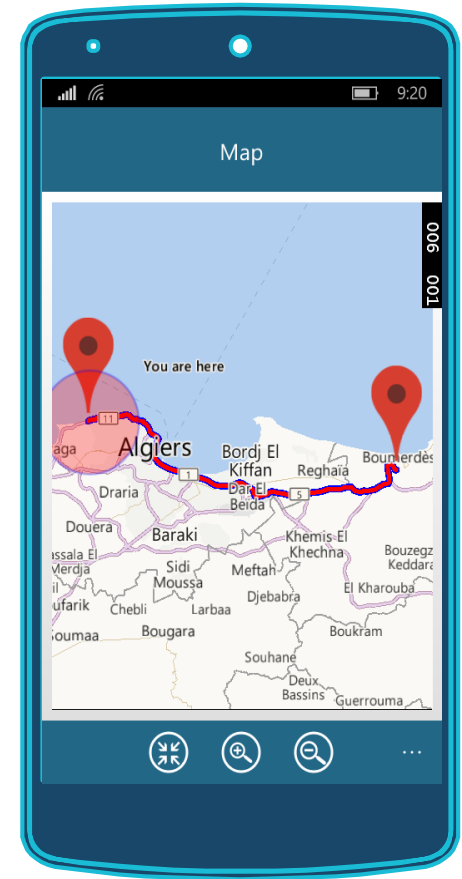

Volunteer:

▷ At this part you can submit a help request at some categorie by pressing the button **Ask For Help**, this part is suitable for old people, also you can see people who need help by pressing **Help and get payed** and select a categorie, then you are provided with the phone number to negociate whether you want help for free or want to get payed.

▷ For people who want donate money or stufs like clothes, they can do this by press the **Donate Money** or **Donate Stufs** buttons, then they can select an associations to get the phone number and the location.

Map:

▷ In all the previous parts when you press the map button, the app takes you to this page where you can follow the shown road.
